When you have completed your call, or the called party does not answer, or you get a busy signal, **hang up for at least five seconds** prior to attempting your next call. This assures a complete disconnection and **prevents double billing.** Communications Services **will not** refund calls which are double billed because the caller did not hang up for at least five seconds.

TELEPHONE LINE FEATURES

Every telephone line at UCSB is configured as part of Feature Group 1000, 2000, or 3000, with Group 1000 being the basic feature package. Group 2000 adds several features, as indicated below; Group 3000 adds these plus Caller ID. For pricing information, please visit our web site <www.commserv.ucsb.edu>.

The following section explains how to use all of the features available.

RECEIVING A CALL

Lift handset or depress Speaker key to answer an incoming call.

- Outside Call: Double/Fast Ring Signal
- Internal Call: Single/Normal Ring Signal

PLACING A CALL

Lift handset or depress Speaker key.

- **Off-Campus Calls:** Dial **9**, followed by the desired telephone number.
- **On-Campus Calls to Other 893 Numbers:** Dial the four-digit extension number.
- **Voice Mail**: Dial **8800**.
- **Campus Operator:** Dial **0**.
- **Emergency Calls:** Dial **9** + **911**.

FLASH

This command is used to activate many features within the system.

On a standard telephone instrument, briefly depress hookswitch, then release. Listen for interrupted or “stutter” dial tone.

On a digital telephone instrument, depress Flash key. Listen for interrupted or “stutter” dial tone.

PLACING OFF-CAMPUS CALLS USING AN AUTHORIZATION CODE

- Dial ***55**. Listen for confirmation tone.
- Dial your Authorization Code. Listen for dial tone.
- Dial **9** followed by the desired telephone number.
- If you hear an interrupted or "stutter" dial tone, re-enter Authorization Code. Call will be completed.

CALL FORWARD ALL CALLS

Allows you to redirect all incoming calls to another campus station, to Voice Mail, or to an off-campus number. You may update the destination number as often as you like.

To activate:

- Lift the handset or depress the Speaker key.
- Dial ***72**. Listen for interrupted or "stutter" dial tone.
- Dial the number to which calls will be forwarded. (For outside numbers, dial **9** first. For voice mail, enter **8800**.) Listen for stutter tone.
- Hang up.

To cancel:

- Lift handset or depress Speaker key.
- Dial ***73**. Listen for confirmation tone.
- Hang up.

NOTE: Any applicable charges for forwarding to an off-campus number, including long distance, will be incurred by the station which initiates the forward.

THREE-WAY CONFERENCE CALLING

Allows you to add a third party (at an on-campus or an off-campus number) to a call in progress.

While engaged in a two-way conversation:

- Ask the calling or called party to hold.
- Depress hookswitch or Flash key. Listen for interrupted or "stutter" dial tone.
- Dial telephone number of third party. Wait for party to answer. If you encounter a busy signal or no answer, or if you make an error in dialing, press hookswitch or Flash key to reconnect to original party.
- When the party answers, advise them that you are setting up a conference call.
- Depress hookswitch or Flash key once again to establish the three-way conference.

CALL HOLD

To place a call on hold:

- Ask the calling or called party to hold.
- Depress hookswitch or Flash key. Listen for interrupted or "stutter" dial tone.
- Dial ***01**. The call is now on hold: listen for new dial tone.
- Do not hang up, or the held party will ring you back.

To take the call off hold and resume conversation:

- Depress hookswitch or Flash key. You are reconnected with the party who was on hold.

  -- or --
- Hang up. Your phone will ring.
- Lift handset or depress Speaker key. You are reconnected with the party who was on hold.

When you have completed your call, or the called party does not answer, or you get a busy signal, **hang up for at least five seconds** prior to attempting your next call. This assures a complete disconnection and **prevents double billing.** Communications Services **will not** refund calls which are double billed because the caller did not hang up for at least five seconds.

CONSULTATION HOLD

Allows you to place an existing call on hold and initiate another call. You can then hold a private conversation with a third party, and/or complete a three-way conference call.

To place a call on Consultation Hold:

- Ask the calling or called party to hold.
- Depress hookswitch or Flash key. Listen for interrupted or "stutter" dial tone.
- Dial telephone number of third party. Wait for party to answer. If you encounter a busy signal or no answer, or if you make an error in dialing, press hookswitch or Flash key to reconnect to your original party.
- When the party answers, you can consult privately before returning to the party placed on consultation hold.

To return to the original caller:

- Allow the consulted party to hang up.

-- or --

- Depress hookswitch or Flash key to establish a three-way conference call.

HOLD WITH ALTERNATION

Allows you to place an existing call on hold, initiate another call, and then alternate between the two without establishing a three-way conference call. Only one call can be placed on hold at any given time.

To place a call on hold and use alternation:

- Ask the calling or called party to hold.
- Depress hookswitch or Flash key. Listen for interrupted or "stutter" dial tone.
- Dial ***01**. The call is now on hold. Listen for new dial tone.
- Dial the telephone number of the third party. Wait for the party to answer. If you encounter a busy signal or there is no answer, or if you make an error in dialing, press hookswitch or Flash key to reconnect to your original party.
- When the party answers, you can consult privately before returning to the party placed on hold.

To alternate between the parties:

- Depress hookswitch or Flash key. Listen for interrupted or "stutter" dial tone.
- Dial ***01**.

NOTE: A three-way conference call cannot be established using the Hold with Alternation feature.

To end alternation:

- Depress hookswitch or Flash key. Listen for interrupted or "stutter" dial tone.
- Dial ***01**.
- Converse with the remaining party.

-- or --

- Hang up.

CALL TRANSFER

Allows you to transfer a call to another extension on campus, or to another number off campus.

- Ask the calling or called party to hold.
- Depress hookswitch or Flash key. Listen for interrupted or "stutter" dial tone.
- Dial the destination extension number or, to transfer a call off campus, dial **9** followed by the destination telephone number. If you encounter a busy signal or no answer, or if you make an error in dialing, press hookswitch or Flash key to reconnect to your original party.
- Announce the call privately.

-- or --

- Hang up. (The call is automatically transferred.)

NOTE: Any applicable charges for an off-campus call, including long distance, will be incurred by the station which initiates the transfer.

CALL PICK-UP GROUP

Allows you to answer incoming calls directed to extensions within your specified pick-up group, without your needing to know the ringing station's extension number.

To answer a call within your pick-up group:

- Lift the handset or depress the Speaker key.
- Depress ***17**. The incoming call is now connected remotely to your telephone.

To answer a call within your pick-up group if you are already engaged in a conversation on your phone:

- Ask the calling or called party to hold.
- Depress hookswitch or Flash key. Listen for interrupted or "stutter" dial tone.
- Dial ***01**. The call is now on hold and a new dial tone is heard.
- Dial ***17**. The incoming call is now connected remotely to your telephone.

NOTE: This feature is available only if you have arranged with Communication Services to define and program your pick-up group.

When you have completed your call, or the called party does not answer, or you get a busy signal, **hang up for at least five seconds** prior to attempting your next call. This assures a complete disconnection and **prevents double billing.** Communications Services **will not** refund calls which are double billed because the caller did not hang up for at least five seconds.

CALL WAITING -- AVAILABLE WITH FEATURE GROUPS 2000 & 3000

Allows you to answer a waiting call while placing the original called or calling party on hold. A Call Waiting tone will be heard while the original call is in progress. One long beep indicates that the call waiting is a call from on campus, while two short beeps indicate that the call waiting is an off-campus call.

To answer a Call Waiting tone:

- Ask the calling or called party to hold.
- Depress hookswitch or Flash key. Your original call is placed on hold.
- Converse with the waiting party.

To return to original party, or to alternate between calls:

- Depress hookswitch or Flash key. The call in progress is placed on hold, and you are connected with the waiting party. Pressing hookswitch or Flash key will alternate between the calls.

To answer a call waiting tone and disconnect from your original call:

- Hang up.
- When your phone rings, lift the handset and talk with the waiting party.

NOTE: If you do not have the Call Waiting feature and would like to add it to your line, contact Communications Services at extension **8700**.

CANCEL CALL WAITING -- AVAILABLE WITH FEATURE GROUPS 2000 & 3000

Allows you to cancel Call Waiting for a single call.

To cancel Call Waiting, you must complete the following steps *before* a call is made:

- Lift the handset or depress the Speaker key.
- Dial ***70**. Listen for interrupted or "stutter" dial tone.
- Dial the desired number, including **9** for an off-campus call. The Call Waiting feature and tones will be suppressed for the duration of the call in progress.

CALL PARK – AVAILABLE WITH FEATURE GROUPS 2000 & 3000

This feature is used to place a call on hold so that it can be retrieved from any other phone on campus. Once the call has been parked, your telephone line is available for re-use.

To park a call:

- Ask the calling or called party to hold.
- Depress hookswitch or Flash key. Listen for interrupted or "stutter" dial tone.
- Dial ***11**. Listen for confirmation tone, signaling that the call has been successfully parked.
- Hang up.

To retrieve a call parked from the same station:

- Lift the handset, dial ***13**, and talk to the party who was parked.

To retrieve a call parked remotely from any other station on campus:

- Lift the handset, dial ***12**, followed by the station number of the user who originally parked the call.
- Converse with the party who was parked on campus.

CALLBACK (CAMP ON) -- AVAILABLE WITH FEATURE GROUPS 2000 & 3000

Allows you to connect automatically to a busy extension as soon as it becomes idle. Only one callback may be initiated at a time. If Callback goes unanswered, the system will cancel it.

To set a Callback when busy signal is heard:

- Depress hookswitch or Flash key. Listen for interrupted or "stutter" dial tone.
- Dial ***52**. Listen for confirmation tone
- Hang up.
- When the busy station becomes available your phone will ring. Lift the handset, which will make the called party's phone ring.

To cancel a Callback set previously:

- Lift handset or depress Speaker key.
- Depress **#52**. Listen for confirmation tone.
- Hang up. Callback is cancelled.

CALL RETURN (*69) – AVAILABLE WITH FEATURE GROUPS 2000 & 3000

Allows you to dial your last caller automatically when you do not get to your telephone in time, or when you do not answer Call Waiting. This feature works for all off-campus calls where the caller has not blocked their number and the carrier supplies it, and for numbers within the system that begin with the **893** prefix.

To access the Call Return feature:

- Lift the handset or depress the Speaker key.
- Dial ***69**.
- Wait for the party to answer.

When you have completed your call, or the called party does not answer, or you get a busy signal, **hang up for at least five seconds** prior to attempting your next call. This assures a complete disconnection and **prevents double billing.** Communications Services **will not** refund calls which are double billed because the caller did not hang up for at least five seconds.

REDIAL LAST CALL – AVAILABLE WITH FEATURE GROUPS 2000 & 3000

Allows you to automatically redial the last number sequence dialed.

- Lift the handset or depress the Speaker key.
- Press ##. The last number sequence you entered is automatically redialed.

CALLER ID – AVAILABLE WITH FEATURE GROUP 3000 ONLY

If you have a telephone with a screen capable of displaying Caller ID, or a separate Caller ID display:

- When an on-campus caller dials your number using just your extension (i.e., the last 4 digits), your display will show the caller's extension.
- If an off-campus caller has not blocked the display of information, your screen will show the caller's 7- or 10-digit telephone number. If your screen is capable of displaying the caller's name, and the caller is capable of sending it, you will see that as well.

9-911 LOCATION REPORTING

9-911 emergency calls are automatically sent to campus emergency services along with telephone location information stored in the campus telephone database. Some telephone systems on campus, such as Digital Key and Voice over IP (VoIP), allow telephones to be moved by departmental personnel instead of by Communications Services technicians.

For accurate telephone location information to be transmitted to E-911, the campus building and room number must be updated in the database by your departmental telephone liaison each time a telephone is moved. To find out who your liaison is, and what liaisons do, go to

www.commserv.ucsb.edu/faculty_and_staff/dept_liaison.asp.

Liaisons: If you have a UCSBnetID and password, you can update this information by logging in at

www.commserv.ucsb.edu/faculty_and_staff/service_locator

If you do not have an ID and password, please contact your Departmental Security Administrator (DSA).

VOICE MAIL FEATURES

The procedures below will allow you to access voice mail, or forward your line to your mailbox. Other voice mail features are summarized in the diagram on the following page. Voice prompts will remind you of your options at every step.

For detailed instructions, visit the Communications Services web site:

www.commserv.ucsb.edu

CALLING YOUR MAILBOX

From your campus telephone:

- Dial **8800**.
- Enter your passcode.

From another campus extension:

- Dial **8800**.
- When prompted for your passcode, press the ***** key instead.
- Dial your 4-digit extension number, followed by the ***** key.
- Enter your passcode when prompted.

From an off-campus telephone:

- Dial **893-8800**.
- When prompted, dial your 4-digit extension number, followed by the ***** key.
- Enter your passcode when prompted.

FORWARDING ALL CALLS TO VOICE MAIL

- Dial ***72**. You will hear a "stutter" or interrupted tone.
- Dial **8800**. You will hear a confirmation tone.
- Hang up.
- To cancel the forwarding, dial ***73**. You will hear a stutter tone. Hang up.

To order voice mail, or to discuss your department's voice mail needs, call extension 8700.

When you have completed your call, or the called party does not answer, or you get a busy signal, **hang up for at least five seconds** prior to attempting your next call. This assures a complete disconnection and **prevents double billing.** Communications Services **will not** refund calls which are double billed because the caller did not hang up for at least five seconds.

CAMPUS MAIL CODES

Listed below are the 4-digit mail codes currently assigned to campus departments by UCSB Mail Services, as of directory publication date. When used in conjunction with 93106, they constitute the "Zip+4," a unique delivery code for every campus mail stop. To ensure proper mail handling, the Zip+4 should appear on all on- and off-campus correspondence.

If your department changes its name or moves, please notify Mail Services so they can update their records. Visit their web site <www.mailservices.ucsb.edu> to obtain an update form, or to view the most recent listings.
